(For May, 1900, 1/2 Per Cent Extra is Declared.)

THIS COMPANY has established a record as one of the steadlest producers of zinc and lead ore in the Missouri-Kansus zinc fields.

ITS PROPERTIES ARE AMONG THE RICHEST in the mineral district, the metallic value of its ore running from 60 to 63 per cent zinc.

Agents for large capitalists are throughing to this mineral region, and rapidly securing all the remaining available zinc lands, an Engish syndicate maining available zinc lands, and leaded extensive:

TRS PROPERTIES ARE AMONG THE RICHEST in the mineral district, the metallic value of its ore running from 60 to 63 per cent zinc.

Agents for large capitalists are througing to this mineral region, and rapidly securing all the remaining available zinc lands, an English syndicate haying, recently purchased and leased extensive tracts of zinc lands, and are about to organize a company with a paid-up capital of \$17,000,000.

An investment in a good zinc company is NOT A SPECULATION: the solid value is present in the mine and oaly needs the milling.

THIS IS DEMONSTRATED by the results obtained from our new mill No. 5. This powerful modern mills, whose inhor-saving devices retrench expenses of production about 10 per cent, has added largely to the company's weekly profits.

THE OMMEANY NOW HAS FIVE producing mills in operation, and in consequence of the substantial increase in one production, the directors have declared in addition to the regular monthly dividend for proceedings of the international Zinc Company of the solid value of the prospects of GRESTER STRY NOW LARGEN FROM THE AND LARGEN FROM THE AND LARGEN FROM THE STRY AND LARGEN FROM THE STR

DEND OF 15 OF 1 PER CENT, payable June 1, to all shareholders of record May 25.

AS INDIGATING THE HIGH VALUE of the International Zine Company's properties, a 7-acre plot adjoining the Free Colmage Mines on the company's 10-acre tract has just been lensed for 825,000 and a royalty of 15 per cent of the gross output. This 7 acres lies on the same veln of ore as the company's Free Colmage mines. The fee was not for safe.

The last report of the weekly output from the Jophin district alone shows an excess in production over the corresponding week of 1890 of 234,000 pounds of zine and 222,000 pounds of lead; yet all authorities are convinced and positively assert that even this production is only the skimming of the vast deposit, whose FULL RICHINESS is not exposed above the 450-foot level.

The International Zine Company is slisking its slisfits to reach this level at the carliest date pos-

Fair Tonight and Sunday; Variable Forecast till 8 p.m. Sunday-For the Dis trict of Columbia, eastern Pennsylvania New Jersey, Delaware, Maryland and Virginia, fair tonight and Sunday; variable winds.

WEATHER INDICATIONS.

Low pressure and high temperature pre-vailed Friday between the Mississippi river and the Rocky mountains, with abnormall and the Rocky mountains, with abnormally low barometer readings in the northwest. East of the Mississippi the temperatures also rose generally, but were not high. West of the Rocky mountains there was a decided fall in temperature, accompanied by general showers, which were heavy over portions of the middle plateau. East of the mountains fair weather prevailed, except over portions of the lake regions and middle Atlantic states, where there were light showers.

Generally fair weather is indicated to-night and Sunday east of the Mississippi river and in the southwest, except on the west gulf coast, where showers are prob-able.

Except in the extreme southwest, where it will be cooler Sunday, the temperature will rise, but not decidedly. On the New England and middle Atlantic On the New England and middle Atlantic coast the winds will be variable, but mostly fresh east to south. On the south coast they will be fresh southerly.
